INTERNSHIP EXPERIENCE

Full Stack Development Intern — THE MAIND IT, Trichy	2026 15 Days
- Developed responsive front-end interfaces using HTML5, CSS3, and JavaScript; built server-side logic with Python. - Implemented Git-based version control and collaborated in a professional development workflow to deliver web applications on schedule.	

PROJECTS

Ingenious Era — Final Year Project

Tech Stack: Python, NLP, Machine Learning, React

- Developed an AI-powered learning platform that transforms daily news into simplified educational content, interview preparation material, aptitude questions, and career insights using NLP and Machine Learning.
- Designed to help students improve knowledge and placement readiness through automated, AI-generated study material.

Smart Kiosk — Bilingual College Information Kiosk

Tech Stack: Python, Flask, JavaScript, HTML/CSS, Web Speech API

- Built a bilingual (Tamil & English) automated self-service kiosk with voice assistant capabilities for information access, registration, appointment booking, and attendance management.
- Implemented AI-powered language auto-detection, keyword-based intent recognition across 19 categories, and text-to-speech for both Tamil and English using Web Speech API.

Personal Portfolio Website ([keerthivasan-portfolio](https://github.com/keerthivasan369))

Tech Stack: HTML, CSS, JavaScript, Flask

- Created a responsive personal portfolio website showcasing technical skills, projects, certifications, resume, achievements, and contact details with a modern UI to strengthen professional online presence.

INTERESTS

Chess (strategic thinking & analytical reasoning) **Music** (creativity & focus) **Self-Learning** (Python, AI/ML, open-source exploration)
